DESIGN INSPIRATIONS

GRAN PREMIO | AGRESTI

The new Agresti collection pushes the design boundaries of the company into new areas of experimentation, markets and tastes. Gran Premio is a cabinet with strongbox that combines the passion for supercars with the love of timepieces, clearly appealing to a male audience with male preferences. On the outside it is covered in black leather with red leather details, while inside it contains a watch holder (made in Switzerland), a secret compartment, and drawers covered in leather and lined on the inside with ultrasuede. The opening system of the safe features a round knob with a built-in biometric device and a system of emergency keys. Captivating glamour and refined accessories make Gran Premio the ideal complement for a sophisticated lifestyle.
