A place where regenerating and rediscovering oneself, which winks at new trends: this is the idea of the new bedroom from Collection by Francesco Pasi Ellipse that creates an ambience where luxury design is the protagonist. Naturalness and value of wood combine with metallic sparkles and refined marbles, for a fascinating design concept. Solid walnut wood and rosewood, brilliant metallic inserts, marbles as Black Marquinia, Onyx Cappuccino, Golden Calacatta, Emperador dark and light: the possibilities of personalization are really endless, and satisfy every aesthetic taste and need for a total made to measure space.
